The *Report of the 2000 National Survey of Science and Mathematics Education* was prepared with support from the National Science Foundation under grant number REC-9814246. These writings do not necessarily reflect the views of the National Science Foundation.

Table of Contents

	<i>Page</i>
List of Tables	v
List of Figures	xi
Acknowledgements	xiii
Chapter One: Introduction	
A. Background and Purpose of the Study	1
B. Sample Design and Sampling Error Considerations	2
C. Instrument Development	3
D. Data Collection	4
E. File Preparation and Analysis	5
F. Outline of This Report	5
Chapter Two: Teacher Backgrounds and Beliefs	
A. Overview	7
B. Teacher Characteristics	7
C. Teacher Preparation	9
D. Teacher Pedagogical Beliefs	18
E. Teacher Perceptions of Their Preparation	20
F. Summary	30
Chapter Three: Teachers as Professionals	
A. Overview	31
B. The School as a Collegial Work Place	31
C. Teacher Perceptions of Their Decisionmaking Autonomy	32
D. Professional Development	36
E. Summary	45
Chapter Four: Science and Mathematics Courses	
A. Overview	47
B. Time Spent in Elementary Science and Mathematics Instruction	47
C. Science and Mathematics Course Offerings	48
D. Other Characteristics of Science and Mathematics Classes	54
E. Summary	60
Chapter Five: Instructional Objectives and Activities	
A. Overview	61
B. Objectives of Science and Mathematics Instruction	61
C. Class Activities	64
D. Homework and Assessment Practices	76
E. Summary	79
Chapter Six: Instructional Resources	
A. Overview	81
B. Textbook Usage	81
C. Facilities and Equipment	87
D. Summary	94

Chapter Seven: Factors Affecting Instruction

A. Overview.....95
B. School Programs and Practices95
C. Extent of Influence of National Standards.....99
D. Problems Affecting Instruction..... 101
E. Summary..... 105

References 107

Appendix A: Sample Design

A. Design OverviewA-1
B. School SampleA-1
C. Teacher SampleA-5
D. Weighting and Variances.....A-8

Appendix B: Survey Questionnaires

- Science Program Questionnaire
- Mathematics Program Questionnaire
- Science Questionnaire (Teacher)
- Mathematics Questionnaire (Teacher)
- List of Course Titles

Appendix C: Pre-Survey Information

- Principal Letter
- Fact Sheet
- Information Needed Before the Survey

Appendix D: Description of Data Collection

A. Advance Notification.....D-1
B. Pre-SurveyD-1
C. Teacher SurveyD-3
D. Presidential AwardeesD-4
E. Prompting RespondentsD-4
F. Response RatesD-5
G. Data Retrieval.....D-6
H. File Preparation.....D-7

Appendix E: Definition of Reporting Variables

A. RegionE-1
B. Type of CommunityE-1
C. Grade RangeE-1
D. Teach Advanced High School Mathematics.....E-1
E. Overview of CompositesE-2
F. Definitions of Teacher CompositesE-3
G. Definitions of Program Composites E-30

List of Tables

	<i>Page</i>
Chapter Two: Teacher Background and Beliefs	
2.1 Characteristics of the Science and Mathematics Teaching Force, by Grade Range	8
2.2 Science and Mathematics Teachers with Degrees Beyond the Bachelor's, by Prior Years Teaching Experience.....	8
2.3 Teachers' Undergraduate Majors in Science and Mathematics, by Grade Range	9
2.4 Number of Semesters of College Coursework in Science, by Grade Range.....	10
2.5 Number of Semesters Completed by Science Teachers in Various Course Categories.....	11
2.6 Middle and High School Science Teachers Completing Various College Courses, by Grade Range	12
2.7 Science Teachers Meeting NSTA Course-Background Standards, by Grade Range.....	13
2.8 Science Classes Taught by Teachers with Six or More College Courses in Field, in Another Science Field, and Lacking In-Depth Preparation in Any Science	14
2.9 Grade 7–12 Science Teachers Teaching Courses in One, Two, or Three or More Science Subjects, by Community Type	14
2.10 Number of Semesters of College Coursework in Mathematics, by Teachers and Classes, and by Grade Range.....	15
2.11 Grade K–4 Mathematics Teachers Completing Various College Courses	15
2.12 Middle and High School Mathematics Teachers Completing Various College Courses, by Grade Range	16
2.13 Mathematics Teachers Completing NCTM-Recommended College Mathematics Courses, by Grade Range.....	17
2.14 Grade 9–12 Mathematics Teachers Completing Various College Courses, by Teaching Assignment	17
2.15 Average Percentage of Undergraduate Science/Mathematics Courses Teachers Completed in Their Field at Two- and Four-Year Institutions, by Grade Range.....	18
2.16 Science Teachers' Familiarity with, Agreement with, and Implementation of the NRC <i>Standards</i> , by Grade Range.....	19
2.17 Mathematics Teachers' Familiarity with, Agreement with, and Implementation of the NCTM <i>Standards</i> , by Grade Range.....	19
2.18 Elementary Teachers' Perceptions of Their Qualifications to Teach Each Subject.....	20
2.19 Middle School Science Teachers' Perceptions of Their Qualifications to Teach Each of a Number of Subjects.....	21
2.20 High School Science Teachers' Perceptions of Their Qualifications to Teach Each of a Number of Subjects	22
2.21 Content Preparedness Composite Scores of High School Science Teachers	23
2.22 Middle School Mathematics Teachers' Perceptions of Their Qualifications to Teach Each of a Number of Subjects.....	24
2.23 High School Mathematics Teachers' Perceptions of Their Qualifications to Teach Each of a Number of Subjects.....	24
2.24 High School Mathematics Teachers Considering Themselves Well Qualified to Teach Each of a Number of Subjects, by Teaching Assignment	25
2.25 Content Preparedness Composite Scores of High School Mathematics Teachers for General and Advanced Mathematics	26
2.26 Teachers' Opinions About Their Science and Mathematics Teaching, by Grade Range	26

2.27	Science Teachers Considering Themselves Well Prepared for Each of a Number of Tasks, by Grade Range.....	27
2.28	Mathematics Teachers Considering Themselves Well Prepared for Each of a Number of Tasks, by Grade Range.....	28
2.29	Composite Scores of Science and Mathematics Teachers' Pedagogical Preparedness.....	29

Chapter Three: Teachers as Professionals

3.1	Science Teachers Agreeing with Each of a Number of Statements Related to Teacher Collegiality, by Grade Range.....	32
3.2	Mathematics Teachers Agreeing with Each of a Number of Statements Related to Teacher Collegiality, by Grade Range.....	32
3.3	Science Classes Where Teachers Report Having Strong Control Over Various Curriculum and Instructional Decisions, by Grade Range.....	33
3.4	Mathematics Classes Where Teachers Report Having Strong Control Over Various Curriculum and Instructional Decisions, by Grade Range.....	33
3.5	Curriculum Control and Pedagogy Control Composite Scores for Science and Mathematics Classes, by Grade Range.....	34
3.6	Science Classes Where Teachers Report Having Strong Control Over Various Curriculum and Instructional Decisions, by Region.....	35
3.7	Mathematics Classes Where Teachers Report Having Strong Control Over Various Curriculum and Instructional Decisions, by Region.....	35
3.8	Curriculum Control and Pedagogy Control Composite Scores for Science and Mathematics Classes, by Region.....	36
3.9	Science Teachers Reporting They Perceived a Moderate or Substantial Need for Professional Development Three Years Ago, by Grade Range.....	37
3.10	Mathematics Teachers Reporting They Perceived a Moderate or Substantial Need for Professional Development Three Years Ago, by Grade Range.....	37
3.11	Time Spent on In-Service Education in Science and Mathematics in Last Three Years, by Grade Range.....	38
3.12	Time Spent by High School Mathematics Teachers on In-Service Education in Mathematics in Last Twelve Months and Last Three Years, by Teaching Assignment.....	38
3.13	Science Teachers Participating in Various Professional Development Activities in Past Three Years, by Grade Range.....	39
3.14	Mathematics Teachers Participating in Various Professional Development Activities in Past Three Years, by Grade Range.....	39
3.15	Science Teachers' Most Recent College Coursework in Field, by Grade Range.....	40
3.16	Mathematics Teachers' Most Recent College Coursework in Field, by Grade Range.....	41
3.17	Science Teachers Participating in Various Science-Related Professional Activities in Last Twelve Months, by Grade Range.....	42
3.18	Mathematics Teachers Participating in Various Mathematics-Related Professional Activities in Last Twelve Months, by Grade Range.....	42
3.19	Science Teachers Reporting That Their Professional Development Gave Heavy Emphasis to Various Areas, by Grade Range.....	43
3.20	Mathematics Teachers Reporting That Their Professional Development Gave Heavy Emphasis to Various Areas, by Grade Range.....	43
3.21	Science Teachers Indicating Their Professional Development Activities in Last Three Years Caused Them to Change Their Teaching Practices, by Grade Range.....	44
3.22	Mathematics Teachers Indicating Their Professional Development Activities in Last Three Years Caused Them to Change Their Teaching Practices, by Grade Range.....	44

Chapter Four: Science and Mathematics Courses

4.1	Science and Mathematics Lessons Taught on Most Recent Day of School.....	47
4.2	Average Number of Minutes Per Day Spent in Elementary School Science and Mathematics Classes.....	48
4.3	Average Number of Minutes Per Day Spent Teaching Each Subject in Self-Contained Classes.....	48
4.4	Schools Offering Various Science Courses, Grade 7 or 8.....	49
4.5	Schools Offering Various Science Courses, Grade 9 and Grade 10, 11, or 12.....	50
4.6	Schools Offering Various Mathematics Courses, Grade 7 or 8.....	51
4.7	Schools Offering Various Mathematics Courses, Grade 9 and Grade 10, 11, or 12.....	51
4.8	Most Commonly Offered Grade 6–12 Science Courses, by Grade Range.....	52
4.9	Most Commonly Offered Grade 6–12 Mathematics Courses, by Grade Range.....	53
4.10	Average Science and Mathematics Class Size.....	54
4.11	Students Assigned to Science and Mathematics Classes by Ability Level.....	56
4.12	Ability Grouping in Science and Mathematics Classes, by Grade Range.....	56
4.13	Ability Grouping in Selected High School Science and Mathematics Classes.....	57
4.14	Ability Grouping in Grade K–12 Science Classes with Low, Medium, and High Percentages of Minority Students.....	57
4.15	Ability Grouping in Grade K–12 Mathematics Classes with Low, Medium, and High Percentages of Minority Students.....	58
4.16	Science and Mathematics Classes with One or More Students with Particular Special Needs, by Grade Range.....	58
4.17	Grade K–12, Science and Mathematics Classes with One or More Limited English Proficiency Students, by Region and Community Type.....	59
4.18	Female and Non-Asian Minority Students in Science and Mathematics Classes, by Grade Range and Subject.....	59

Chapter Five: Instructional Objectives and Activities

5.1	Science Classes with Heavy Emphasis on Various Instructional Objectives, by Grade Range.....	62
5.2	Mean Composite Scores Related to Science Class Objectives, by Grade Range.....	63
5.3	Mathematics Classes with Heavy Emphasis on Various Instructional Objectives, by Grade Range.....	63
5.4	Mean Composite Scores Related to Mathematics Class Objectives, by Grade Range.....	64
5.5	Science Classes Where Teachers Report Using Various Strategies on a Daily Basis, by Grade Range.....	65
5.6	Science Classes Where Teachers Report that Students Take Part in Various Instructional Activities at Least Once a Week, by Grade Range.....	66
5.7	Science Classes Where Teachers Report that Students Never Take Part in Particular Instructional Activities, by Grade Range.....	67
5.8	Science Classes Where Teachers Report that Students Never Use Computers to do Particular Activities, by Grade Range.....	68
5.9	Class Mean Scores for Science Teaching Practice Composite Variables, by Grade Range.....	68
5.10	Science Classes Participating in Various Activities in Most Recent Lesson, by Grade Range.....	69
5.11	Average Percentage of Science Class Time Spent on Different Types of Activities, by Grade Range.....	69
5.12	Mathematics Classes Where Teachers Report Using Various Strategies on a Daily Basis, by Grade Range.....	70
5.13	Mathematics Classes Where Teachers Report that Students Take Part in Various Instructional Activities at Least Once a Week, by Grade Range.....	71
5.14	Mathematics Classes Where Teachers Report that Students Take Part in Various Instructional Activities on a Daily Basis, by Grade Range.....	72
5.15	Mathematics Classes Where Teachers Report that Students Never Take Part in Particular Instructional Activities, by Grade Range.....	73

5.16	Mathematics Classes Where Teachers Report that Students Use Calculators/Computers for Various Activities at Least Once a Week, by Grade Range	74
5.17	Mathematics Classes Participating in Various Activities in Most Recent Lesson, by Grade Range	74
5.18	Class Mean Scores for Mathematics Teaching Practice Composite Variables, by Grade Range	75
5.19	Average Percentage of Mathematics Class Time Spent on Different Types of Activities, by Grade Range	76
5.20	Amount of Homework Assigned in Science and Mathematics Classes per Week, by Grade Range.....	76
5.21	Science Classes Where Teachers Report Assessing Students' Progress Using Various Methods at Least Monthly, by Grade Range	77
5.22	Mathematics Classes Where Teachers Report Assessing Students' Progress Using Various Methods at Least Monthly, by Grade Range.....	78
5.23	Class Mean Scores for Assessment Practice Composite Variables, by Grade Range.....	78

Chapter Six: Instructional Resources

6.1	Science and Mathematics Classes Using Commercially Published Textbooks/Programs.....	81
6.2	Science and Mathematics Classes Using Textbooks and/or Programs, by Grade Range	82
6.3	Market Share of Commercial Science and Mathematics Textbook Publishers, by Grade Range.....	83
6.4	Most Commonly Used Science Textbooks, by Grade Range and Course	84
6.5	Most Commonly Used Mathematics Textbooks, by Grade Range and Course	85
6.6	Publication Year of Science and Mathematics Textbooks/Programs, by Grade Range.....	86
6.7	Percentage of Science and Mathematics Textbooks/Programs Covered During the Course, by Grade Range.....	86
6.8	Teachers' Perceptions of Quality of Textbooks/Programs Used in Science and Mathematics Classes, by Grade Range.....	87
6.9	Science Classes Where Various Equipment Is Used During Instruction, by Grade Range	88
6.10	Mathematics Classes Where Various Equipment Is Used During Instruction, by Grade Range	88
6.11	Science Classes Where Various Equipment Is Needed for Instruction, But Not Available, by Grade Range.....	89
6.12	Mathematics Classes Where Various Equipment Is Needed for Instruction, But Not Available, by Grade Range.....	89
6.13	Science Classes Where Various Equipment Is Not Needed for Instruction, by Grade Range	90
6.14	Mathematics Classes Where Various Equipment Is Not Needed for Instruction, by Grade Range.....	90
6.15	Science and Mathematics Composite Scores Related to Classroom Equipment Use, by Grade Range	92
6.16	Median Amount Schools Spent Per Year on Science and Mathematics Equipment, Consumable Supplies, and Software.....	92
6.17	Median Amount Schools Spent Per Pupil on Science and Mathematics Equipment, Consumable Supplies, and Software.....	93
6.18	Schools Purchasing Science and Mathematics Equipment, Consumable Supplies, Software, or Any Purchase in Previous Year	93
6.19	Amount of Own Money Science and Mathematics Teachers Spent on Supplies Per Class.....	94

Chapter Seven: Factors Affecting Instruction

7.1	Science Programs Indicating Use of Various Programs/Practices, by School Type.....	96
7.2	Mathematics Programs Indicating Use of Various Programs/Practices, by School Type.....	96
7.3	Use of Science and Mathematics Instructional Arrangements in Elementary Schools.....	97
7.4	Use of Science and Mathematics Instructional Arrangements in Middle Schools.....	98
7.5	Opportunities for High School Students to Take Science and Mathematics Courses Not Offered in Their School.....	98

7.6	Respondents Agreeing with Various Statements Regarding the NRC <i>Standards</i> for Science Curriculum, Instruction, and Evaluation, by School Type	100
7.7	Respondents Agreeing with Various Statements Regarding the NCTM <i>Standards</i> for Mathematics Curriculum, Instruction, and Evaluation, by School Type	100
7.8	Science/Mathematics Program Scores on Composites Related to the NRC/NCTM <i>Standards</i> , by School Type	101
7.9	Science Program Representatives Viewing Each of a Number of Factors as a Serious Problem for Science Instruction in Their School, by School Type	102
7.10	Mathematics Program Representatives Viewing Each of a Number of Factors as a Serious Problem for Mathematics Instruction in Their School, by School Type	103
7.11	Science and Mathematics Program Scores on Composites Related to Problems Affecting Instruction, by School Type	104

Appendix A: Sample Design

A-1	Distribution of Sample, by Stratum	A-4
A-2	Teachers Selected in Each School Stratum	A-7

Appendix D: Description of Data Collection

D-1	Results of Pre-Surveys, by Stratum	D-2
D-2	Results of Program Questionnaires, by Stratum and Subject	D-5
D-3	Results of Teacher Questionnaires, by Stratum and Subject	D-6

Appendix E: Description of Reporting Variables

E-1	Teacher Collegiality	E-3
E-2	Teacher Preparedness to Use Standards-Based Teaching Practices	E-4
E-3	Teacher Preparedness to Teach Students from Diverse Backgrounds	E-5
E-4	Teacher Preparedness to Use Calculators/Computers	E-6
E-5	Teacher Preparedness to Use the Internet	E-7
E-6	Teacher Content Preparedness: Science	E-8
E-7	Teacher Content Preparedness: Mathematics	E-11
E-8	Nature of Science/Mathematics Objectives	E-12
E-9	Basic Mathematics Skills Objectives	E-13
E-10	Mathematics Reasoning Objectives	E-14
E-11	Science Content Objectives	E-15
E-12	Use of Traditional Teaching Practices	E-16
E-13	Use of Strategies to Develop Students' Abilities to Communicate Ideas	E-17
E-14	Use of Informal Assessment	E-18
E-15	Use of Journals/Portfolios	E-19
E-16	Use of Calculators	E-20
E-17	Use of Multimedia	E-21
E-18	Use of Projects/Extended Investigations	E-22
E-19	Use of Computers	E-23
E-20	Use of Laboratory Activities	E-24
E-21	Use of Laboratory Facilities	E-25
E-22	Use of Calculators/Computers for Investigations	E-26
E-23	Use of Calculators/Computers for Developing Concepts and Skills	E-27
E-24	Curriculum Control	E-28
E-25	Pedagogy Control	E-29

E-26	Teacher Attention to Standards.....	E-30
E-27	Other Stakeholders' Attention to Standards.....	E-31
E-28	Extent to Which Facilities and Equipment Pose a Problem for Instruction.....	E-32
E-29	Extent to Which Students and Parents Pose a Problem for Instruction.....	E-33
E-30	Extent to Which Time Constraints Pose a Problem for Instruction	E-34

List of Figures

Chapter Four: Science and Mathematics Courses	
4.1 Class Size, Science: Grades K–4.....	55
4.2 Class Size, Science: Grades 5–8.....	55
4.3 Class Size, Science: Grades 9–12.....	55
4.4 Class Size, Mathematics: Grades K–4.....	55
4.5 Class Size, Mathematics: Grades 5–8.....	55
4.6 Class Size, Mathematics: Grades 9–12.....	55
Appendix E: Description of Reporting Variables	
E-1 K–12 Science: Teacher Collegiality	E-3
E-2 K–12 Mathematics: Teacher Collegiality	E-3
E-3 K–12 Science: Teacher Preparedness to Use Standards-Based Teaching Practices	E-4
E-4 K–12 Mathematics: Teacher Preparedness to Use Standards-Based Teaching Practices	E-4
E-5 K–12 Science: Teacher Preparedness to Teach Students from Diverse Backgrounds	E-5
E-6 K–12 Mathematics: Teacher Preparedness to Teach Students from Diverse Backgrounds.....	E-5
E-7 K–12 Science: Teacher Preparedness to Use Calculators/Computers.....	E-6
E-8 K–12 Mathematics: Teacher Preparedness to Use Calculators/Computers.....	E-6
E-9 K–12 Science: Teacher Preparedness to Use the Internet	E-7
E-10 K–12 Mathematics: Teacher Preparedness to Use the Internet.....	E-7
E-11 Teacher Content Preparedness: Biology/Life Science	E-9
E-12 Teacher Content Preparedness: Chemistry.....	E-9
E-13 Teacher Content Preparedness: Earth Science.....	E-9
E-14 Teacher Content Preparedness: Environmental Science	E-9
E-15 Teacher Content Preparedness: Integrated/General Science	E-9
E-16 Teacher Content Preparedness: Physical Science	E-9
E-17 Teacher Content Preparedness: Physics	E-10
E-18 Teacher Content Preparedness: General Mathematics	E-11
E-19 Teacher Content Preparedness: Advanced Mathematics	E-11
E-20 K–12 Science: Nature of Science Objectives	E-12
E-21 K–12 Mathematics: Nature of Mathematics Objectives	E-12
E-22 K–12 Mathematics: Basic Mathematics Skills Objectives	E-13
E-23 K–12 Mathematics: Mathematics Reasoning Objectives	E-14
E-24 K–12 Science: Science Content Objectives	E-15
E-25 K–12 Science: Use of Traditional Teaching Practices	E-16
E-26 K–12 Mathematics: Use of Traditional Teaching Practices	E-16
E-27 K–12 Science: Use of Strategies to Develop Students’ Abilities to Communicate Ideas.....	E-17
E-28 K–12 Mathematics: Use of Strategies to Develop Students’ Abilities to Communicate Ideas.....	E-17
E-29 K–12 Science: Use of Informal Assessment.....	E-18
E-30 K–12 Mathematics: Use of Informal Assessment.....	E-18
E-31 K–12 Science: Use of Journals/Portfolios.....	E-19
E-32 K–12 Mathematics: Use of Journals/Portfolios.....	E-19
E-33 K–12 Science: Use of Calculators	E-20
E-34 K–12 Mathematics: Use of Calculators	E-20
E-35 K–12 Science: Use of Multimedia	E-21

E-36	K–12 Mathematics: Use of Multimedia	E-21
E-37	K–12 Science: Use of Projects/Extended Investigations	E-22
E-38	K–12 Science: Use of Computers	E-23
E-39	K–12 Science: Use of Laboratory Activities.....	E-24
E-40	K–12 Science: Use of Laboratory Facilities	E-25

E-44	K–12 Mathematics: Curriculum Control.....	E-28
E-45	K–12 Science: Pedagogy Control.....	E-29
E-46	K–12 Mathematics: Pedagogy Control	E-29
E-47	K–12 Science: Teacher Attention to Standards.....	E-30
E-48	K–12 Mathematics: Teacher Attention to Standards.....	E-30
E-49	K–12 Science: Other Stakeholders’ Attention to Standards	E-31
E-50	K–12 Mathematics: Other Stakeholders’ Attention to Standards	E-31
E-51	K–12 Science: Extent to Which Facilities and Equipment Pose a Problem for Instruction.....	E-32
E-52	K–12 Mathematics: Extent to Which Facilities and Equipment Pose a Problem for Instruction.....	E-32
E-53	K–12 Science: Extent to Which Students and Parents Pose a Problem for Instruction.....	E-33
E-54	K–12 Mathematics: Extent to Which Students and Parents Pose a Problem for Instruction	E-33
E-55	K–12 Science: Extent to Which Time Constraints Pose a Problem for Instruction.....	E-34
E-56	K–12 Mathematics: Extent to Which Time Constraints Pose a Problem for Instruction.....	E-34

Acknowledgements

The 2000 National Survey of Science and Mathematics Education was coordinated by Horizon Research, Inc. (HRI) of Chapel Hill, North Carolina with support from the National Science Foundation (NSF). Iris R. Weiss, President of HRI, served as Principal Investigator, assisted by P. Sean Smith, Eric R. Banilower, and Kelly C. McMahon. Westat, Inc. of Rockville, Maryland served as data collection subcontractor, under the direction of Diane Ward. The sample design was developed by Rick Valliant and Huseyin Gokselh of Westat.

A number of science and mathematics educators contributed to the design of the survey, including Rolf Blank, Audrey Champagne, Joan Ferrini-Mundy, Andrew Porter, and Senta Raizen. Conrad Katzenmeyer of NSF's Division of Research, Evaluation, and Communication provided valuable advice as Program Officer for the study. Special thanks are due to the thousands of teachers throughout the United States who took time from their busy schedules to provide information about their science and mathematics teaching.
