THE NATIONAL SURVEY OF
SCIENCE AND MATHEMATICS EDUCATION:
TRENDS FROM 1977 TO 2000

May 2002

Horizon Research, Inc.
326 Cloister Court
Chapel Hill, NC 27514

P. Sean Smith

*The National Survey of Science and Mathematics Education: Trends
From 1977 to 2000* was prepared with support from the National
Science Foundation under grant number REC-9814246. These writings
do not necessarily reflect the views of the National Science Foundation.

Table of Contents

	<i>Page</i>
List of Tables	v
List of Figures.....	ix
Background and Purpose	1
Section One: Teacher Backgrounds and Beliefs	3
Section Two: Teachers as Professionals.....	19
Section Three: Science and Mathematics Classes.....	27
Section Four: Instructional Objectives and Activities.....	43
Section Five: Instructional Resources	51
Section Six: Factors Affecting Instruction.....	63
Conclusion	67

List of Tables

Page

Section One: Teacher Backgrounds and Beliefs

1.1	Race/Ethnicity of the Science Teaching Force, by Grade Range: 1993 and 2000.....	3
1.2	Race/Ethnicity of the Mathematics Teaching Force, by Grade Range: 1993 and 2000.....	4
1.3	Age of the Science Teaching Force, by Grade Range: 1993 and 2000.....	7
1.4	Age of the Mathematics Teaching Force, by Grade Range: 1993 and 2000.....	7
1.5	Years of Teaching Experience of the Science Teaching Force, by Grade Range: 1993 and 2000	8
1.6	Years of Teaching Experience of the Mathematics Teaching Force, by Grade Range: 1993 and 2000	8
1.7	Science and Mathematics Teachers with Degrees Beyond the Bachelor’s, by Prior Years Teaching Experience: 1993 and 2000.....	9
1.8	Number of Semesters of College Coursework in Science, by Grade Range: 1993 and 2000.....	9
1.9	Science Teachers Meeting NSTA Course-Background Standards, by Grade Range: 1993 and 2000.....	10
1.10	Science Classes Taught by Teachers with Six or More College Courses in Field, in Another Science Field, and Lacking In-Depth Preparation in Any Science: 1993 and 2000.....	11
1.11	Number of Semesters of College Coursework in Mathematics, by Grade Range: 1993 and 2000.....	11
1.12	Self-Contained Grade 1–6 Teachers Feeling Very Well Qualified to Teach Each Subject: 1977, 1985–86, 1993, and 2000.....	12
1.13	Mathematics Teachers Considering Themselves Very Well Qualified to Teach Each of a Number of Subjects, by Grade Range: 1993 and 2000	12
1.14	Science Teachers Considering Themselves Well Prepared for Each of a Number of Tasks, by Grade Range: 1993 and 2000.....	13
1.15	Mathematics Teachers Considering Themselves Well Prepared for Each of a Number of Tasks, by Grade Range: 1993 and 2000.....	14

Section Two: Teachers as Professionals

2.1	Science Teachers Agreeing with Each of a Number of Statements Related to Teacher Collegiality, by Grade Range: 1993 and 2000.....	19
2.2	Mathematics Teachers Agreeing with Each of a Number of Statements Related to Teacher Collegiality, by Grade Range: 1993 and 2000	20
2.3	Science Classes Where Teachers Report Having Strong Control Over Various Curriculum and Instructional Decisions, by Grade Range: 1993 and 2000	21
2.4	Mathematics Classes Where Teachers Report Having Strong Control Over Various Curriculum and Instructional Decisions, by Grade Range: 1993 and 2000	22
2.5	Science and Mathematics Teachers Agreeing That the State/District Testing Program Dictates What They Teach, by Grade Range: 1993 and 2000	23
2.6	Time Science Teachers Spent on In-Service Education in Science in Last Three Years, by Grade Range: 1993 and 2000.....	24
2.7	Time Mathematics Teachers Spent on In-Service Education in Mathematics in Last Three Years, by Grade Range: 1993 and 2000.....	24
2.8	Science Teachers Participating in Various Science-Related Professional Activities in Last Twelve Months, by Grade Range: 1993 and 2000.....	25
2.9	Mathematics Teachers Participating in Various Mathematics-Related Professional Activities in Last Twelve Months, by Grade Range: 1993 and 2000	25

Section Three: Science and Mathematics Classes

3.1 Science and Mathematics Lessons Taught on Most Recent Day of School, by Grade Range: 1993 and 2000.....27

3.2 Schools Offering Various Science Courses, Grades 7 or 8: 1993 and 2000.....30

3.3 Schools Offering Various Science Courses in Grades 10, 11, or 12: 1993 and 2000.....31

3.4 Schools Offering Various Mathematics Courses, Grades 7 or 8: 1993 and 2000.....32

3.5 Schools Offering Various Mathematics Courses in Grades 10, 11, or 12: 1993 and 2000.....33

3.6 Grade 7–8 and Grade 9–12 Science Classes: 1993 and 2000.....34

3.7 Grade 7–8 and Grade 9–12 Mathematics Classes: 1993 and 2000.....34

3.8 Students Assigned to Science and Mathematics Classes by Ability Level, by Grade Range: 1993 and 2000.....35

3.9 Ability Grouping in Science Classes, by Grade Range: 1993 and 2000.....38

3.10 Ability Grouping in Mathematics Classes, by Grade Range: 1993 and 2000.....38

3.11 Ability Grouping in Selected High School Science Courses, by Courses: 1993 and 2000.....39

3.12 Ability Grouping in Selected High School Mathematics Courses, by Courses: 1993 and 2000.....39

3.13 Science Classes with One or More Students with Particular Special Needs, by Grade Range: 1993 and 2000.....40

3.14 Mathematics Classes with One or More Students with Particular Special Needs, by Grade Range: 1993 and 2000.....40

3.15 Science Classes with One or More Limited English Proficiency Students, by Region and Community Type: 1993 and 2000.....41

3.16 Mathematics Classes with One or More Limited English Proficiency Students, by Region and Community Type: 1993 and 2000.....41

3.17 Female and Non-Asian Minority Students in Science Classes, by Grade Range and Courses: 1993 and 2000.....42

3.18 Female and Non-Asian Minority Students in Mathematics Classes, by Grade Range and Courses: 1993 and 2000.....42

Section Four: Instructional Objectives and Activities

4.1 Science Classes Where Teachers Report that Students Take Part in Various Instructional Activities at Least Once a Week, by Grade Range: 1993 and 2000.....44

4.2 Science Classes Participating in Various Activities in Most Recent Lesson, by Grade Range: 1993 and 2000.....45

4.3 Average Percentage of Science Class Time Spent on Different Types of Activities, by Grade Range: 1993 and 2000.....46

4.4 Science Classes Including Whole Class Lecture/Discussion in Most Recent Lesson, by Grade Range: 1993 and 2000.....46

4.5 Mathematics Classes Where Teachers Report that Students Take Part in Various Instructional Activities at Least Once a Week, by Grade Range: 1993 and 2000.....48

4.6 Mathematics Classes Participating in Various Activities in Most Recent Lesson, by Grade Range: 1993 and 2000.....49

4.7 Average Percentage of Mathematics Class Time Spent on Different Types of Activities, by Grade Range: 1993 and 2000.....49

Section Five: Instructional Resources

5.1 Percentage of Science Textbooks/Programs Covered During the Course, by Grade Range: 1993 and 2000.....54

5.2 Percentage of Mathematics Textbooks/Programs Covered During the Course, by Grade Range: 1993 and 2000.....55

5.3 Teachers' Perceptions of Quality of Textbooks/Programs Used in Science Classes, by Grade Range: 1993 and 2000.....56

5.4	Teachers' Perceptions of Quality of Textbooks/Programs Used in Mathematics Classes, by Grade Range: 1993 and 2000.....	56
5.5	Equipment Usage in Science Classes, by Grade Range: 1993 and 2000.....	58
5.6	Equipment Usage in Mathematics Classes, by Grade Range: 1993 and 2000.....	59
5.7	Median Amount Schools Spent Per Pupil on Science Equipment, Consumable Supplies, and Software, by School Type: 1993 and 2000	60
5.8	Median Amount Schools Spent Per Pupil on Mathematics Equipment, Consumable Supplies, and Software, by School Type: 1993 and 2000	61
5.9	Schools Purchasing Science Equipment, Consumable Supplies, Software, or Any Purchase in Previous Year, by School Type: 1993 and 2000	61
5.10	Schools Purchasing Mathematics Equipment, Consumable Supplies, Software, or Any Purchase in Previous Year, by School Type: 1993 and 2000	62
5.11	Amount of Own Money Science and Mathematics Teachers Spent on Supplies Per Class, by Grade Range: 1993 and 2000.....	62

Section Six: Factors Affecting Instruction

6.1	Respondents Agreeing with Various Statements Regarding the NCTM <i>Standards</i> for Mathematics Curriculum, Instruction, and Evaluation, by School Type: 1993 and 2000	64
6.2	Science Program Representatives Viewing Each of a Number of Factors as a Serious Problem for Science Instruction in Their School, by School Type: 1993 and 2000	65
6.3	Mathematics Program Representatives Viewing Each of a Number of Factors as a Serious Problem for Mathematics Instruction in Their School, by School Type: 1993 and 2000	66

List of Figures

	<i>Page</i>
Section One: Teacher Backgrounds and Beliefs	
1.1 Females in the Science Teaching Force	5
1.2 Females in the Mathematics Teaching Force.....	6
1.3 Science Teachers Considering Themselves a “Master” Teacher of the Subject	15
1.4 Mathematics Teachers Considering Themselves a “Master” Teacher of the Subject.....	16
1.5 Science Teachers Who Enjoy Teaching Science	17
1.6 Mathematics Teachers Who Enjoy Teaching Mathematics	18
Section Two: Teachers as Professionals	
[None]	
Section Three: Science and Mathematics Classes	
3.1 Average Number of Minutes Per Day Spent in Elementary School Science Class	28
3.2 Average Number of Minutes Per Day Spent in Elementary School Mathematics Class	28
3.3 Average Number of Minutes Per Day Spent Teaching Each Subject in Grade 1–3 Self-Contained Classrooms	29
3.4 Average Number of Minutes Per Day Spent Teaching Each Subject in Grade 4–6 Self-Contained Classrooms	29
3.5 Average Number of Students in Science Classes	36
3.6 Average Number of Students in Mathematics Classes	37
Section Four: Instructional Objectives and Activities	
4.1 Science Classes Using Hands-On Activities in Most Recent Lesson	47
4.2 Mathematics Classes Using Hands-On Activities in Most Recent Lesson.....	50
Section Five: Instructional Resources	
5.1 Science Classes Using Commercially Published Textbooks/Programs	52
5.2 Mathematics Classes Using Commercially Published Textbooks/Programs	53
Section Six: Factors Affecting Instruction	
[None]
